GARDEN WORKSHOP SERIES

FOOD FOREST & SOIL BUILDING

WHAT IS A FOOD FOREST? HOW AND WHY DO WE BUILD THEM? WHAT IS THE BENEFIT?

Join us at Grafton Agricultural Commons to explore how to create these ecosystems and understand their significance in Bowen's ecology and food resilience.

We will engage in hands-on activities with soil as we begin to construct a food forest from the ground up!

SUNDAY, JULY 12
1:00 - 3:00pm

Grafton Agricultural Commons
